Document upload and Application Submission

A dashboard appears requesting the user to enter the details of their business and upload relevant documents, which after submission will be sent for review. Status of the application can be viewed.

The screenshot shows a 'Startup Dashboard' with a light blue background. At the top, there's a 'Business Description' section with a text area containing the text: 'In order to promote medicinal plants sector, the Government of India has set up National Medicinal Plants Board (NMPB) on 24th November 2000. Currently the board is located in...'. Below this is an 'Upload Documents' section with a 'Choose File' button and the text 'No file chosen'. A blue 'Update Profile' button is positioned below the upload section. The 'Application Status' section features four status indicators: 'Document Upload Pending' (blue dot), 'under review' (blue dot), 'approved' (blue dot), and 'rejected' (grey dot). The bottom of the dashboard has a dark blue footer with 'Links' (Home) and 'Social links' (Facebook, YouTube, Instagram icons).

Status Tracking

Admins and Government Officials registered in the portal can view all registered startup applications along with their status.

Display of all Approved Startups

All the authenticated in users will be able to see the startups that are approved

Future Scope

- Dedicated Page to each startup, showing the details of their startup with access to the owner to update the details.
- Provision to invest in a particular startup by the stakeholders based on the information provided.
- FAQ's and Support & Help Page to resolve queries if any and adress common issues faced.
